

CASE SUBMISSION REQUIREMENTS

To ensure the highest quality planning and predictable outcomes with the NEXO Aligner System, please prepare and submit the following materials for each case.

contact@nexo-aligners.com

Required Records

- Intraoral Scans – Upper and lower arches (STL or compatible format)
- Intraoral Photographs – Standard clinical views
- Extraoral Photographs – Frontal, profile, and smile views
- Lateral Cephalometric X-ray – For skeletal and growth assessment
- Orthopantomography (OPG) – For overall dental and bone evaluation

Optional

- Visual Treatment Objective (VTO) – For treatment projection and planning
- Arc of Closure Bite Scan Recording – Using blue wax or Modjaw recording
- CBCT – Indicated for real root segmentation and a reliable treatment approach.

Important notes

- All records must be clear, accurate, and in digital format.
- Ensure bite registrations are precise to allow reliable occlusal simulation.
- Upload files via the NEXO submission portal.
